📍 Noida, India

PROFILE OVERVIEW

Dynamic and results-oriented **Senior / Lead Technical Recruiter** with 6+ years of experience specializing in **US IT Staffing, AI/ML hiring, and niche technology recruitment**. Proven ability to deliver high-quality talent across software engineering, cloud, and emerging AI domains.

Strong expertise in hiring for **AI Architects, Product Manager, Data Scientists, ML Engineers, and Full Stack Developers**, with deep understanding of modern tech ecosystems. Skilled in leveraging AI tools to enhance sourcing efficiency, optimize outreach, and reduce time-to-fill.

Familiar with various visa types like, **GC, GC-EAD, H1B, OPT- EAD, F1, H4-EAD** & have worked on W2, C2C. Worked on various roles, like **Java Developer, .Net Developer, Business Analyst, Program Manager, Project manager** and other various IT positions. Proficient in using Job Diva, Job Boards, and LinkedIn for covering multiple requirements

KEY VALUE PROPOSITION

- Expert in closing **niche & hard-to-fill roles**
- Strong experience in **AI/ML and Software Engineering hiring**
- Proven ability to work with **US clients and global stakeholders**
- Skilled in **high-volume + strategic hiring environments**
- Data-driven recruiter with focus on **quality & speed**

DOMAIN EXPERTISE

AI / Machine Learning Hiring

- AI Architect, ML Engineer, NLP Engineer
- Generative AI, LLMs, Prompt Engineering

Data & Analytics

- Data Scientist, Data Engineer, BI Developer

Software Engineering

- Java, Python, .NET Developers
- Full Stack (React, Angular, Node.js)

Cloud & DevOps

- AWS, Azure, GCP
- DevOps, SRE, MLOps

PROFESSIONAL EXPERIENCE

Lead Recruiter

US Tech Solutions | Oct 2022 – Present

Key Contributions:

- Led end-to-end recruitment for **Software Engineering, AI/ML, Cloud, and Product Management roles** across US clients
- Successfully closed **niche and high-priority roles** including AI Architect, Data Scientist, ML Engineer, and Full Stack Developers
- Extensive experience working with **US visa types (GC, GC-EAD, H1B, OPT-EAD, F1, H4-EAD)** and hiring models including **W2 and C2C**
- Recruited for a wide range of roles such as **Java Developer, .NET Developer, Business Analyst, Project/Program Manager**, and other IT positions
- Mentored and guided **junior recruiters** on sourcing strategies, Boolean search techniques, and candidate screening best practices

- Assisted in **onboarding and training new team members**, improving team productivity and delivery quality
- Built and maintained **strong pipelines** for W2, C2C, and contract hiring across multiple client accounts
- Partnered with hiring managers to **define hiring strategies, prioritize requirements, and ensure timely delivery**
- Leveraged **AI tools (ChatGPT, Microsoft Copilot)** for sourcing, JD creation, and personalized outreach
- Utilized platforms like **GitHub, Stack Overflow, and developer communities** to identify and engage passive tech talent
- Acted as a **point of contact/escalation** for critical and high-priority roles within the team
- Collaborated with cross-functional teams to **streamline recruitment workflows and improve hiring efficiency**
- Shared market insights and hiring trends with the team to **enhance overall recruitment strategy**

Impact:

- Improved **sourcing efficiency** and reduced **time-to-fill**
- Strengthened pipeline for **critical and recurring roles**
- Increased **candidate response rate** through targeted outreach
- Contributed to **team performance improvement** through mentoring and knowledge sharing

Senior Technical Recruiter

Aditi Consulting | May 2022 – Oct 2022

Key Contributions:

- Worked extensively on **US IT staffing** across multiple **visa types (GC, GC-EAD, H1B, OPT-EAD, F1, H4-EAD)** and hiring models including **W2, C2C, and contract**
- Successfully recruited for a wide range of roles including **Java Developers, .NET Developers, Business Analysts, Project Managers, Program Managers**, and other critical IT positions
- Managed **end-to-end recruitment lifecycle** including sourcing, screening, technical evaluation, interview coordination, and offer negotiation
- Built and maintained strong pipelines using **JobDiva, LinkedIn Recruiter, and major job boards** to handle **multiple client requirements simultaneously**
- Partnered with hiring managers and account managers to **understand job requirements, define sourcing strategies, and ensure timely closures**
- Conducted **initial technical screenings** to assess candidate fit based on skills, experience, and project background
- Worked on both **high-volume and niche hiring requirements**, ensuring quality submissions within tight deadlines
- Utilized **Boolean search techniques and advanced sourcing strategies** to identify passive candidates
- Maintained consistent communication with candidates throughout the hiring process, ensuring **positive candidate experience**

Impact:

- Delivered a **consistent and high-quality candidate pipeline** for multiple client accounts
- Improved **submission-to-interview ratio** through effective screening and candidate matching
- Ensured **timely closures** for critical and high-priority roles
- Strengthened stakeholder trust through **reliable delivery and quality hiring**

Technical Recruiter

Wissen Infotech | Mar 2020 – Apr 2022

Key Contributions:

- Managed **full-cycle recruitment** from sourcing to onboarding
- Gained early exposure to **data and emerging tech hiring**
- Worked extensively with **ATS (JobDiva)**
- Built pipelines using **LinkedIn Recruiter and Boolean search techniques**

Impact:

- Successfully supported **multiple client accounts**
- Built strong foundation in **technical hiring and stakeholder management**

ATS: JobDiva

AI Tools: ChatGPT, Microsoft Copilot

Sourcing & Talent Intelligence:

- LinkedIn Recruiter, Boolean Search, X-Ray Search
- GitHub (developer profiling & project analysis)
- Stack Overflow (technical screening insights)
- Developer Communities (Reddit, HackerRank, Kaggle, tech forums)

 SAMPLE HIRING PORTFOLIO (REPRESENTATIVE)

Role	Technology / Skills	Hiring Type
Software Developer	Java, Spring Boot, Microservices, Python	W2 / C2C
Data Scientist	Python, Machine Learning, NLP, SQL	Contract
AI Architect	RAG, LLMs, Generative AI, AI Systems Design	Contract
Full Stack Developer	React, Node.js, Angular, REST APIs	W2 / C2C
Cloud Engineer	AWS, Azure, GCP, DevOps	Contract
DevOps Engineer	CI/CD, Jenkins, Docker, Kubernetes	Contract
Machine Learning Engineer	Python, TensorFlow, PyTorch, MLOps	Contract
Data Engineer	ETL, Spark, Hadoop, SQL, Python	Contract
Business Analyst	Agile, Scrum, SQL, Stakeholder Management	W2 / Contract
Project / Program Manager	Agile, Scrum, Jira, Risk Management	W2 / Contract
QA / Automation Engineer	Selenium, TestNG, Cypress, API Testing	Contract
UI/UX Developer	HTML, CSS, JavaScript, Figma	Contract

 EDUCATION

B.Tech – Mechanical Engineering

Azad Institute of Engineering and Technology

 DIFFERENTIATORS

- AI-enabled recruitment approach
- Strong understanding of modern tech stacks
- Ability to scale hiring across multiple domains
- Consistent performer in fast-paced environments

 PERSONAL BRAND STATEMENT

"Driving business success by connecting top tech talent with the right opportunities through strategy, innovation, and AI-powered recruitment."
